Mediterranean™ in Sapphire Blue

This pool has been modeled after our stunning success of The Riviera™ pool. It was a hard task for the Leisure Pools® designers to improve on The Riviera™, but without doubt they have.

The Mediterranean™ is a large pool in every way. Not only is this pool longer and wider, it is also, most importantly, much deeper standing at 8' in the deep end.

This is a pool that meets every standard when it comes to versatility. The Mediterranean™ features a massive wrap-around bench at the shallow end, offering a great kids' play area, but also well-suited for adult seating. The wide entry steps provide access to the bench area before continuing to lead you down to the floor of the pool. The main body of water is huge and is perfect for swimming.

With its smooth, free-flowing design, this pool can lend to a variety of delightful landscaping themes. There's not much more you could you ask for in a swimming pool — a generous body of water, flexible landscaping options, and meets the requirements to allow for a residential type 1 diving board — truly a fantastic pool for the whole family.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
