SWIMMING IN QUALITY AND STYLE®

FACT SHEET

The Harmony™

Harmony™ in Sapphire Blue

In harmony with your home, in harmony with your landscape, in harmony with your lifestyle...Leisure Pools® has created The Harmony™ range with the ability to adapt perfectly into any situation. Leisure Pools®, having received a strong demand from our customers for a modern, clean-lined architectural design, developed The Harmony™ to satisfy this demand.

The Harmony™ is a simple, rectangular swimming pool with square corners that provides you with a sleek, modern design. This model includes a spacious bench that runs the entire length of the pool, providing direct access to the entry/exit steps that lead down to the pool floor, or the single steps in or out of the pool itself.

The Harmony™ was created as a pool with deeper depths, ensuring even the tallest of people can have an enjoyable swim. It is its width, however, that enables it to fit comfortably within many home blocks.

By having the full length bench and steps on one side of the pool, the design allows the deepest part of the pool to be well away from any house foundations. This can often allow the pool to be set closer to the home, a great benefit for backyards with limited space for a pool.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
26' 3"	9' 6"	4' 3"	5' 9"
23'	9' 6"	4' 3"	5' 7"
19' 8"	9' 6"	4' 3"	5' 4"
16' 5"	9' 6"	4' 3"	5' 2"
